ORIGIN OF A PHRASE.—The phrase "the devil to pay" doubtless originated in a printing office, on some Saturday night's settlement of weekly wages.

"John," says the publisher to the book-keeper, "how stands the cash account."

"Small balance on hand, sir"

"Let's see," rejoined the publisher, "how far that will go towards satisfying the hands."

John begins and figures; so much to Typhus, so much to Grubble, and so on, through a dozen ditos. The publisher stands aghast.

"Here is not money enough by a jug full."

"No, sir! and besides there is *the devil* to pay."

THE EX-ROYAL FAMILY OF FRANCE.—At the last accounts from Europe the Count and Countess de Neuilly were at St. Leonard, Prince de Joinville, with others, had been off fishing in the British Lion, and had most excellent sport. The whole of the family were in the enjoyment of good health, and daily drive to some of the various delightful scenes in the neighborhood—one day to Winchilsea, another to Battle, and a third to Bexhill. They have also visited Tunbridge Wells. Their stay at Leonard's was like to be prolonged for two or three weeks.

☞ A father had three sons, in whose company he was walking when an old enemy of his came running out of an ambush, and inflicted a severe wound upon him before any of the bystanders could interfere. The eldest son pursued the assassin, the second bound up his father's wound, and the third swooned away. Which of the sons loved his father best?

PACIFIC NEWS.

Thursday, October 4, 1849.

The Attitude of California before the Union,

AND ITS CLAIMS UPON THE FEDERAL GOVERNMENT.

The session of the Constitutional Convention, at Monterey, is now uniting, with all that passes under our own eyes, in the unparalleled growth and progress of business and population among us, to bring out in bold relief the true position of our community, and to open even to a superficial observation, the august and mighty future which awaits it. An experience now too prolonged and satisfactory to be distrusted, has pointed out this favored region as the great treasure-house of the world. A moderate estimate would fix the produce of California gold during the current twelve-month, at a *minimum* of forty millions. And if an accurate census of our population from *month to month*, could be taken, it would unquestionably develope the astounding fact, that our numbers are increasing, and in so far as the future can be foreseen by human prudence, are to continue to increase with a rapidity *a hundred fold greater* in proportion than is the augmentation of any other equally large community upon the face of the earth! Such is the actual condition of a vast region, which the assembled wisdom of the Congress of the United States has been forced, by a combination of unhappy circumstances, to leave up to this time wholly without that fostering care and protection of the Federal Government which has always been extended to every previous acquisition of its immense territory stretching from sea to sea! The Northwest, Louisiana, Florida, Texas, Oregon,—all have had protection—defence—encouragement—in a word, *help*, from Washington. California—California alone—with mightier resources, with greater difficulties—with more pressing necessities, and with a grander future open before her, than any of them, has been left thus far to rely even for *social and political existence*, solely upon her own strong arm!

The pressure of high public duty—of public duty which cannot be dispensed with, nor translated, nor postponed—which this unexampled state of things has thrown upon the people of California, is without any approach to a parallel in the history of the world. To say nothing of those most vital interests—interests involving everything dear and sacred to social man—which a State organization is to provide for and to take care of, let us consider for a moment those great public measures, which if true to herself and to her destinies, California, as a part of the Federal Union, must demand and *must carry through*, in the Congress of the United States. We must have a wisely digested land law for our great public domain. We must have a mint for our gold. We must have a custom-house adequate to the demands of this, the great port of entry of the Pacific, and in a word, the full organization of a revenue system, through which our commercial enterprise,—while it accumulates its own wealth and yields, as it ought to yield, and as we confidently trust that Congress will permit it to yield, something to alleviate the burdens of our own State government, is yet to do more to enrich the Federal Treasury than was ever done before for the Central Government, by any new and youthful community. We must have an organization and an accommodation of our Post-office system throughout our own territory, and in connexion with the Atlantic side of our Union, ample enough for the immense business and social intercourse of a region on which the eyes of the world are fixed. We must have a potential voice in the location and the speedy progress of that great National Rail Road, which is hereafter to connect with us, and through us, with the teeming wealth and swarming population of India, China and Japan, that broad valley of the Mississippi which is the granary of the world, and those ports of our Atlantic seaboard, through which we are to transmit the opulence of a *new era* in the commercial development of the world! And finally, and perhaps, if possible, of more pressing importance and of more immediate effect upon our community than either of these, we must have that organization and array of steam ships, with all their naval aids and accommodations, which are to give to us and to our country the undisputed command of the commerce of the Pacific and the East!

All these are measures for which we *must* look to the Federal Government, because they are beyond State jurisdiction, and for which we *must rely upon the energy, experience and influence of our Representatives in the two branches of the National Legislature*. For ourselves individually, our position has never been a neutral one in the politics of our country, and we shall still abide by our old principles on all questions in which those principles are involved. But we are happy, as Californians, to perceive, that upon these great California measures, there is not and there cannot be any room for mere partisan jealousies and bickerings between democrats and whigs. We shall support as candidates for the Senate and for the House of Representatives, those men whom we deem best qualified by influence at Washington, already acquired, by Congressional experience and ability, by liberality of views, and by energy of character, to carry any or all of these measures through, in their due season.

Convention Reports.

We lay before our readers, in continuation of this series of documents referred to in our last publication, such portions of the Report of the Committee appointed to digest a plan for a State Constitution, as we have up to this time received. We defer to another opportunity such suggestions as we may have to make upon the provisions already submitted by the Committee.

THE COMMITTEE APPOINTED TO REPORT "A PLAN OR A PART OF A PLAN OF A STATE CONSTITUTION," HAVING HAD THE SAME UNDER CONSIDERATION, RESPECTFULLY FURTHER REPORT THE FOLLOWING:—

ARTICLE V.

Judicial Department.

SEC. 1. There shall be a Supreme Court, having general jurisdiction in law and equity.

SEC. 2. This Court shall consist of four judges, each of whom shall be elected at the general election by the qualified electors of the judicial district in which he resides, provided that the legislature shall at its first session elect the judges of the Supreme Court by joint vote of both houses. These judges shall hold their office for the term of four years. On the organization of the court, the judges shall be classified by lot, so that one shall go out of office every year.

SEC. 3. The State shall be divided into four judicial districts; in each of which, circuit courts shall be held at stated periods by one of the judges of the Supreme Court.

SEC. 4. There shall be a Court of Appeals formed of any three of the judges of the Supreme Court; but no judge shall sit in the Court of Appeals in any case upon which he has given a judicial opinion in the Circuit Court. In case of the absence or disability of any of the judges of the Supreme Court from the Court of Appeals, their places shall be supplied in the manner to be prescribed by law.

SEC. 5. The Legislature shall have power to increase the number of judges of the Supreme Court, and the number of judicial districts; and whenever it shall deem expedient, it may provide by law for the separation of the Court of Appeals from the Circuit Court, and for the election of the Circuit judges by the qualified electors of each judicial district. And when such separation shall be made, the Court of Appeals shall consist of three judges, who shall be elected by the qualified electors of the whole State. They shall hold their office for the term of six years and be so classified that one shall go out of office every two years; and when such separation is made, the Circuit judges shall also hold their office for the term of six years.

SEC. 6. The Supreme Court shall have the power to issue all writs and processes necessary to do justice to parties, and exercise a supervisory control under such regulations as may be prescribed by law, over all inferior judicial tribunals, and the judges of the Supreme Court shall be conservators of the peace throughout the State.

SEC. 7. The legislature shall provide for clerks of the Court of Appeals and Circuit Courts, and shall fix by law their duties and compensations.

SEC. 8. There shall be elected in each of the organized counties of this State, one County Judge, who shall hold his office for four years. He shall hold the County Court and perform the duties of Surrogate, or Probate Judge. The County Judge, with two justices of the peace, to be designated according to law, shall hold courts of sessions with such criminal jurisdiction as the legislature shall prescribe, and he shall perform such other duties as shall be required by law.

SEC. 9. The County Court shall have jurisdiction in cases arising in justices' courts, and in special cases, as the legislature may prescribe, but shall have no original civil jurisdiction except in such special cases.

SEC. 10. In the temporary absence or disability of the County Judge, his place in criminal cases shall be supplied by the senior justice of the peace of the county.

SEC. 11. The times and places of holding the terms of the Court of Appeals, and of the general and special terms of the Circuit Court, within the several districts, and of the courts of Oyer and Terminer, shall be provided for by law.

SEC. 12. No judicial officer, except justices of the peace, shall receive to his own use any fees or perquisites of office.

SEC. 13. The legislature may authorize the judgment decrees, and decisions of any local and inferior court of record of civil jurisdiction, established in a city, to be removed directly into the Court of Appeals.

SEC. 14. The legislature shall provide for the speedy publication of all statute laws, and of such judicial decisions shall be free for publication by any person.

SEC. 15. Tribunals for conciliation may be established with such powers and duties as may be prescribed by law, but such tribunals shall have no power to render judgment, to be obligatory on the parties, except they voluntarily submit their matters in difference, and agree to abide the judgment, or assent thereto in the presence of such tribunal, in such cases as shall be prescribed by law.

SEC. 16. The legislature shall determine the number of justices of the peace to be elected in each county, city, town and incorporated village of the State, and fix by law their powers, duties and responsibilities. It shall also determine in what cases appeals may be made from the justices' courts to the county court.

SEC. 17. The judges of the supreme and district courts shall severally, at stated times during their continuance in office, receive for their services a compensation to be paid out of the treasury, which shall not be increased or diminished during the term for which they shall have been elected. The county judges shall also, severally, at stated times, receive for their services a compensation to be paid out of the county treasury of their several counties, which shall not be increased or diminished during the term for which they shall have been elected.

SEC. 18. The supreme and district judges shall be ineligible to any other office during the term for which they shall have been elected.

SEC. 19. The style of process shall be: "The people of the State of California," and all prosecutions shall be conducted in the name and by authority of the same.

All of which is respectfully submitted.

(Signed.) MYRON NORTON, Chairman.

Hon. Thomas Butler King.

☞ Mr. King's health continues to improve daily, and we learn with unfeigned satisfaction that he has yielded to the earnest solicitations of his friends to be returned to the U. S. Senate, as one of the first representatives of the new State of California. To this end, he has resigned his seat as member from Georgia, and as he publicly announced at the meeting in Portsmouth square, in June last, he has emphatically taken up his residence with us. His past history, his early and devoted efforts in behalf of California—his experience and knowledge of naval affairs, and the leading part which he has already taken in bringing the whole subject of steam navigation before Congress, and the country, as evidenced both in his speeches upon the floor of Congress, and in the masterly report upon the subject, which we have already laid before our readers—all these qualifications combine, with his far seeing forecast as a statesman, to form an earnest and to give a guaranty of what we may expect from him as the direct representative of a rapidly increasing population of a country yet destined to command the attention of the whole commercial world.

We shall have more to say upon—in the meantime we feel *that the ground we occupy* is enhanced an hundred fold by his generous consent to become the conservator of our gigantic interests next winter at the capitol.

☞ Successful are our business men, and rich is the pecuniary harvest we are reaping; our privations are light, and our hearts buoyant with hope, that allures only to brighter days; no lowering prospects—no disappointed ambition—no terrors of hunger, or want, disturb our slumbers; our friends surround us; affluence crowns our labors; we rejoice in the fullness of our store, and dream not of misery or distress about us, or that aching hearts, and palsied limbs, and throbbing brows, and parched lips, disease, the dead and dying, are on every side. Are we not too deeply absorbed in self to hear the groans or listen to the complaints of our suffering brethren?—Every day witnesses scenes here that will rend the hearts of many a paternal roof, when the tidings shall reach it of the father or brother that has suffered and died neglected. Among the thousands that visit our shores in pursuit of our golden treasures, hundreds are prostrated by disease, and their slender means exhausted long before returning health enables them to provide for themselves; and there are hundreds more who lie upon the cold ground and yield up their lives to the disease and destitution that has overtaken them. Life to them is a mockery, and human sympathy a shadow. "Be ye warmed and be ye clothed," may be heard from many a lip, but cold indeed is the charity bestowed to mitigate their sufferings. In our prosperity we forget them, and we realize not their presence amongst us. But it is even so; they are with us, they are of us, and may they claim in humanity's name our sympathy and our assistance.

With no public institution of charity in our borders the coming winter, there will be scenes of suffering that forebodes evil to our city. Despair will nerve many a heart to deeds of violence that under other circumstances would shudder at the bare thought of it. Cannot something be done, some provision made for the needy and destitute sick in our midst the coming winter? [*Communicated.*]

☞ Hon. G. P. Judd, Minister of Finance under the Hawaiian government, at the Sandwich Islands, accompanied by two young gentlemen, sons of the King, are in town and stopping at the United States Hotel. Mr. Judd and the two princes are on their way to Washington to represent the state of affairs at the Islands to our government.

☞ It was our intention to have published Dr. Gwinn's speech, on the subject of banks and banking, in this morning's paper—but a pressure of advertisments prevents our doing so. Several communications intended for the paper to-day, are also necessarily omitted. Have patience, friends, we will attend to your demands with as little delay as possible.

CITY PHYSICIAN'S OFFICE,
Sept. 30, 1849.

Hon. Jos. R. Curtis, Sub Prefect:

SIR:—Permit me through you, to tender to the Town Council my sincerest thanks for the very honorable appointment they have been pleased to confer on me. I recognize, gratefully, the kindest and most flattering intentions in the opportunities which they have proposed to afford me of presenting my profession in its happiest lights, those of benevolence and mercy.

With this sincere appreciation of the honor done me, you will not doubt that it is upon compulsion, and most respectfully, that I now implore the Honorable Council to justify me in suspending, at least, the functions of my office, until I am properly provided with the means of performing them with safety to myself, and advantage to the public.

At present, in the effort to be faithful and useful in the discharge of my duty, I am daily incurring detriment to my professional character,—by having to report candidly, *unnecessary* deaths,—and the most painful duty and anxiety for the sufferings of men who, with myself, have scarcely the *consolation* of an uncertain result; and, worse than all, I need not assure you that I have momentarily before my eyes the dread of censure from a community who seem to be too sadly uninformed of the amount and sort of suffering around them, to be prepared to applaud the efforts of those whose duty and whose hope it is to relieve it.

You will grant that it cannot be with an eye to the inadequacy of my *pecuniary* compensation, that I now request to be relieved from an injurious position, in which I am sure it was never the intention of the Council I should be placed. This last, you will believe, has been with me, throughout, a consideration of so little moment, that I have regarded my present salary only as a fund at the disposal of those to whom it might prove more useful than I have found it. This however is only a *profession* for the sincerity of which those who can spare so much interest for the matter may find many prepared to answer.

With this brief protest, let me commit my interests to your gracious care, with the frank avowal that, unprovided as I am with proper aid and all indispensible appliances, I am no longer at liberty to confront a responsibility too serious for my self-confidence.

My accounts await the requisition of the Council.

With much respect
Your servant:
J. W. PALMER,
City Physician.

TO THE HON. THE AYUNTAMIENTO OF SAN FRANCISCO.

Oct. 2d, 1849.

GENTLEMEN:—I have the honor to transmit to you a communication received some days since, from the City Physician.

The Council will learn from it, that his efforts have been entirely inoperative owing to the inadequacy of the means that have been placed at his disposal, for the alleviation of the sick, whose distressful and helpless condition has been fully and truthfully portrayed by him.

I invoke the attention of your Hon'l. body to the subject matter of his appeal, feeling assured that you will promptly supply every reasonable facility to insure the fulfilment of your benevolent and charitable intentions towards the poor and suffering sick of this city.

Very respectfully, Yours &c.
JOS. R. CURTIS, Sub Prefect.

THE CITY OF SOUTH SAN FRANCISCO.—The undersigned beg leave to inform the public that a survey of the city of south San Francisco has just been completed, and a map of the city is now to be seen at the store of De Boom, Vigneaux & Grisar, on Clay street.

The site is located on the Bay of san Francisco, two miles southerly of the city of san Francisco, and in plain sight of the shipping in the harbor.

The same depth of water which is found in the harbor of the city of san Francisco, is to be found in the harbor of the city of south san Francisco and along the bay between the two harbors.

The harbor is more securely protected from the wind than the harbor of the city of san Francisco, and ships of the heaviest burden may lay within a boats length of the land at many points, and quite close generally along the whole front of the city affording the best facilities for discharging cargo.

The land rises in a gentle slope from the water, and is composed of a rich clay soil.

There are extensive stone quarries, and springs of fine running water are found on the face of the hill in many places.

The character of the soil always keeps the air free from dust or sand; the surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay.

A stream of the finest water in California, and sufficient in quantity to water both cities, and all the shipping that ever may lay in their harbors, forms the northern boundary of the city, and will be conducted into a reservoir for such purposes.

The only practicable route for a good road from the city of san Francisco to san Jose, will pass through south san Francisco, crossing the mouth of Mission creek and the mouth of the creek just alluded to.

From san Francisco to san Jose and Monterey is one of the best natural roads in the world, and passing on this road from south san Francisco, you travel along a beautiful valley of hard grass land to the puertesuelo, a distance of less than two miles.

Persons desious of seeing the city will go out on the old Mission road, and will find the Mission about half way.

It is but a short ride—go out and see for yourselves, and if you wish to purchase lots that will shortly equal in value those of the city of san Francisco, call on the subscribers at the store of De Boom, Vigneaux & Grisar.

JOHN TOWNSEND,
CORNEILLE DE BOOM.

P. S. On the first day of October the price of lots will be raised from one hundred dollars to one hundred and fifty dollars.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, san Francisco. HIRAM GRIMES.

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been prepared by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold, and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and san Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, san Francisco, and at the city of New York.

TOWN OF SUTTER.
(LATE SUTTERSVILLE.)

This town has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 14 miles land travel to the mines. The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and san Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation posseses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES,
